

Environment Policy

Teconnex is a light engineering company, manufacturing clamps for Engine and Vehicle manufacture, Marine, Chemical, Petrochemical, Oil and Gas Production, Pharmaceutical, Food and Beverage, Water treatment, Aerospace and Power systems industries. The company has the capability and capacity to meet the demands of customers around the world and seventy five percent of it's production is exported.

The company is committed to the protection of the environment, the prevention of pollution, complying with all legal and other requirements; and the continual improvement of it's impact(s) on the environment.

Management of its activities, products and services will be through an Environmental Management System and encompasses all activities at the Keighley site.

There will be a strong emphasis on minimising waste as well as high standards of storage. Teconnex shall also promote the efficient use of resources, energy and materials.

The policy will be reviewed annually and the objectives, targets and the environmental management system updated as necessary.

The policy will be made available to the public as requested, and be communicated to all employees and contractors working on site.

Paul Sleaford  
Managing Director
